

SensoIRIS WSB IP65 Waterproof protected deep base

EN 60529

Description

SensoIRIS WSB IP65 is a waterproof protected deep base specially designed for outdoor installations of addressable sounders SensoIRIS series. The deep base is suitable for wall mounting in applications in aggressive environments requiring IP65 protection of the devices.

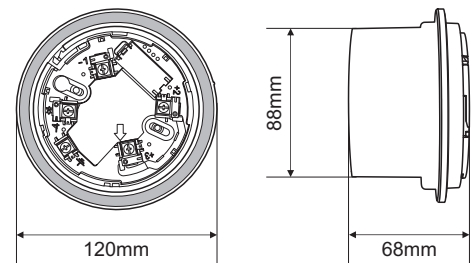

SensoIRIS WSB IP65 comes in a kit with a solid rubber gasket, o-ring sealant and IP65 rated cable glands.

SensoIRIS B124 standard base is mounted with screws.
